

MEETING REPORT

Team Name: Techengers

Date of Meeting: 08.04.2021

Start Time: 21:00

End Time: 22:20

Meeting Location: meet.google.com

Moderator: Rei Balla

Recorder: Rei Balla

Other Members Present: Klejda Kumi

Nikaela Balla

Xhesika Bicaku

Xhois Shaholli

Lidio Hoxha

Members Absent:

Topics Discussed:

1. Backend infrastructure
2. Frontend figma views
3. Client requirements

Decisions Made:

Firstly I need to mention that separated the group in 2 main sub-groups and created separate channels in discord server:

- Frontend (Klejda Kumi, Xhesika Bicaku, Xhois Shaholli)
- Backend (Nikaela Balla, Lidio Hoxha)

1. For the backend we discussed how to organize our backend with express js and how we are going to store information in mongodb. We decided to create a separate REST API server that will generate routes that connect to mongodb and we will use these url-s to fetch data in the frontend.
2. For the frontend me and Xhois designed some mockups on Figma that will help us visualize the end product and prepare us to better organize the frontend.
3. Kejda Kumi is the Client Representative and discussed with the client their requirements for the project.

| Epoka ID | Name | Role | |
|----------|----------------|---------------------------------------|------------------------------|
| 2011805 | Xhesika Bicaku | Frontend (JS React CSS etc) | Researcher |
| 2011804 | Klejda Kumi | Frontend (JS React CSS etc) | Client Representative |
| 2011826 | Rei Balla | Team Leader | Captain |
| 2011850 | Nikaela Balla | Backend (JS Express APIs etc) | Analyst |
| 2011825 | Xhois Shaholli | Frontend (JS React CSS etc) | Editor |
| 2011853 | Lidio Hoxha | Backend (JS Express APIs etc) | Tester |

Other additional roles:

- Rei Balla (github manager, project manager)
- Xhois Shaholli (designer)
- Nikaela Balla (backend architect)
- Xhesika Bicaku (tester, css stylist)
- Klejda Kumi (optimist, css stylist)

Tasks Assigned:

Frontend:

- First Hello World app in React
- Sketch some page ideas or features about the product
- Continue to learn GIT

Backend:

- First Hello World app in Express.js
- Sketch some db models and decide how to store user info
- Continue to learn GIT

Time, Place, and Agenda for Next Meeting: Monday 20:00, online meet.google.com to discuss how we are going to structure the project and the backend infrastructure.
